

Focus on Yearbook

It seems the last day of school arrives in a "flash" each year, so it is always a good time to start thinking about taking photos for the TCA yearbook.

Production of the TCA yearbook begins as soon as school begins each school year. We take many photos at school events, but your photos are also welcome. More photos mean more choices for the yearbook!

Photos that are especially useful are class photos from field trips and team and action shots from sports events. Individual student photos that work best are shots from the waist up with some space over the head (this makes it easier to crop photos to needed sizes).

You may e-mail photos to me at tcaoflawton@sbcglobal.net. We also have a card reader in the office which works with most camera cards or we can scan actual photos.

All photos should be submitted by the end of April to be considered for use in the yearbook. Photos from events during April and May should be submitted as soon as events are finished.

Thanks to my "yearbook committee!"

Charlann Kirchen
Yearbook Coordinator
